

DISPENSER

Product Description

Durable as a sledgehammer, but easy to handle and somehow light weighted. Not an easy target when we developed this group of belt dispenser. With our new, all-in-house-made, high performance dispenser we are matching that target and also our customers needs. Each model is manufactured and carefully assembled in our factory by our team of skilled engineers and mechanics.

Dispensers come in different models:

Industries Served

- Engineering
- Machinery
- Logistics
- Power and Refinery

Dispenser Cart I

Dual handle cart with adjustable handle, automatic belt brake to prevent uncontrolled unwinding and a handy tool tray.

Delivered with 2 sets of coil disc, for 78mm and 200 mm inner core.

Dispenser Cart II

Fixed single handle cart with automatic belt brake to prevent uncontrolled unwinding and a handy tool tray.

Delivered with 2 sets of coil disc, for 78mm and 200 mm inner core.

Dispenser Stand

Fixed dispenser stand with automatic belt brake to prevent uncontrolled unwinding.

Delivered with 2 sets of coil disc, for 78mm and 200 mm inner core.

Dispenser "MOVE"

The "MOVE" version is attachable to forklifts or other vehicles. It also comes with automatic belt brake and 2 sets of coil disc, for 78mm and 200 mm inner core.

Dispenser Cart dispenser

Steel discs dispenser with fixed handle, simple belt brake and tool tray.

Only suitable for coils with 200mm inner core.

Key Features

- Adjustable height
- Double ball bearing centre - allow coils to turn smoothly and easily
